

2-piece wardrobe

Metal and Lamiant wardrobes offer reliable equipment for changing rooms due to their design and high quality.

The "Triton Modular" wardrobe is a new and unique variable concept. The carcass, which is made of a sheet of steel, can be optimally adapted to our customers' wishes - whether they want a wardrobe with 2 doors, 4, 6 or 8 compartments or a different room layout. The cabinet doors can be made of either sheet steel or laminated chipboard and can be anchored on the left, right or left-right. As standard, the doors are fitted with a cylinder lock or a rotary bolt lock from BURG. The shelves have integrated holders for the chrome clothes rail.

Feature 2-piece wardrobe
