

Key cabinet 100 hooks

The key cabinet is used for a better overview of the keys, e.g. for property management. The key cabinet is easy to attach to the wall.

The key cabinet is used for a better overview of the keys, e.g. for the property management or in rooms equipped with a larger number of cloakroom lockers. The cabinet is easy to mount on the wall and is equipped with a cylinder lock. The hooks are made of high-quality sheet steel.

Colour palette: The surface treatment of the cabinets by means of powder colour technology fully meets the requirements of our customers. The paint has good chemical and mechanical resistance. The basic colour palette consists of RAL colours 7035 (light grey), 9005 (black) and 5005 (blue).
