

Cloakroom bench with hook rail

Cloakroom benches are used in changing rooms in companies, gyms, schools and sports clubs. We supply cloakroom benches in a combination of sheet steel and Lamiant.

Cloakroom benches are used in changing rooms in companies, gyms, schools and sports clubs. They are made of robust 30 x 30 mm steel profiles. The seat surface has a laminate top with a 2 mm wide ABS edge. The feet are equipped with plastic glides and the backrests have practical hooks in the respective profile colour.

Feature Cloakroom bench with hook rail
