

## Ice hockey box HPL

The ice hockey box is ideal for changing rooms in ice hockey arenas. The ice hockey box is also used in other facilities.

The HPL universal box is made of extremely resistant high-pressure laminate and is ideal for the cabinets of all professional and semi-professional clubs. Two versions are proposed. The version for players with a width of 800 mm, the goalkeeper version is 1000 mm wide. As it is an exclusive matter, we offer a wide range of decors to meet the requirements of all clubs for their colour combinations.
