

## Ski and snowboard cabinet wide

The ski locker and snowboard locker is designed for equipping ski hotels, guesthouses or ski depots in winter sports areas. Optionally with dryer.

Ski and snowboard lockers are designed to equip ski hotels, guesthouses or ski depots in winter sports areas. The lockers are characterised by the welded frame construction with a galvanised steel sheet coated with powder paint. The back wall is equipped with an effective system for drying boots. A special perforation in the door and back wall guarantees air circulation inside the locker.

### Feature Ski and snowboard cabinet wide

**Article number INTECH:** 67008  
**Height x width x depth (mm):** 2155 x 520 x 600
